I'd like to see if we can get EOC approval.

Bill Keener is collecting edits. Should we move forward with the fact sheet he put together?

Lisa – are you making additional edits?

**Subject:** RE: R9 fact sheet vs. existing fact sheet

That was my original idea – if you wanted the Red & Bonita info out there, it's already done with the May factsheet. What I put together was the larger historical context, mostly. So let's go ahead and get that completely approved... Lisa sent me back a few changes/comments on that, but you are still getting some other program approvals, right, Lisa?

Liz

I know you agreed with Bill's idea to create new fact sheet that is higher level than this existing one (wasn't sure if you had seen it) – R9 has used existing information from our website to

create new one. Joan thinks we should just use this existing fact sheet then no review is needed. This was already sent to congressionals and handed out at public meeting.

Please advise.

Hi, Lisa.

Here you go. I'll shoot more to you in a few. The Gold King Mine fact sheet hasn't been officially blessed for posting on the webpage, but it is out there, so Tim can decide if he wants to put it on there. It is a little dated now anyway. Sorry for the delay.

Cynthia

Can you send me a copy of any docs you guys have handed out down there? Rich is putting together messaging and needs them and we need to make sure Tim has them to post.

I think everything is being posted on the official Gold King Site, so as long as we are linked to that, I think we are good.

Thanks!
